CHANGE NO: 105	TO (No.)	TITLE: Grain Inspection Handbook, Book II, Grain Grading Procedures, Chapter 10, Soybeans, and Grain Inspection Handbook, Book III, Grain Inspection Procedures, Chapter 1, Inspection of Shiplots, Unit Trains, and Lash Barges	DATE: 9-1-07
--------------------------	-----------------	--	------------------------

PURPOSE OF CHANGE: The Grain Inspection Handbook, Book II, Grain Grading Procedures, Chapter 10, Soybeans, and the Grain Inspection Handbook, Book III, Grain Inspection Procedures, Chapter 1, Inspection of Shiplots, Unit Trains, and Lash Barges, have been revised to reflect changes to the U.S. Standards for soybeans. On September 1, 2007, test weight per bushel in soybeans will be removed as a grading factor from the U.S. Standards for soybeans. Additionally, soybean test weight per bushel, when determined by official analysis, will be reported and certified to the nearest tenth of a pound.

These changes also impact the application of the CuSum loading plan. Therefore, Book III is revised to reflect changes associated with the tables listing the applicable grade limits and breakpoints for soybeans. Minor editorial changes were made to other pages (listed below) of Chapter 1.

FILING INSTRUCTIONS

Remove	Dated	Insert	Dated
Book II, Chapter 10, Soybeans, Page 10-1	8-9-04	Page 10-1	9-1-07
